IA 1139 INSTRUCTIONS

All amounts should be in whole dollars

General Instructions

Form IA1139 can be used only for the carryback of an Iowa capital loss, an Iowa net operating loss or an Iowa alternative minimum tax net operating loss. If any other changes are involved, form IA1120X must be filed.

Carryback claims must be filed within three years of the due date of the return producing the net operating loss or capital loss. Attach copies of page one of your Iowa return for all periods involved with this claim including the loss year and any federal claims involved (i.e. 1139 or 1120X). Include supporting documentation for a capital loss or alternative minimum tax loss (i.e. both Federal and Iowa alternative minimum tax schedules for the loss year and carryback years). Include verification that IRS accepted Federal carryback.

Iowa did **not** adopt the 5-year carryback provision for net operating losses incurred in 2001 and 2002 relating to the Federal Job Creation and Workers Assistance Act of 2002.

For tax years beginning after August 5, 1997, an Iowa net operating loss may be carried back two tax periods and carried forward 20 tax periods. Losses resulting from a casualty or theft loss or losses attributable to a presidentially-declared disaster area can still be carried back three years. The carryback period for net operating losses from farming businesses is five years to the extent the net operating losses are for tax years beginning on or after January 1, 1998.

Specific Instructions

(On the return, references to line numbers are bracketed.)

Corporation name and address and Federal T.I.N.: Check box if different than on returns as filed.

Tax Type: Check the appropriate box.

Loss Information: Check the appropriate box and provide the amount of Iowa loss. Show the remaining loss to be carried forward after this carryback. Indicate whether any year involved in this claim has been adjusted by Federal audit. If yes, include a copy of the Federal audit.

NOTE: In computing the Iowa net operating loss carryback for accrual basis tax returns, the net operating loss year should be reduced by 50 percent of the Federal tax refunds accruing to the loss year. If you are using filing status 2 or 3, the Federal refund is computed using the "Loss Producers" formula set forth on Schedule H, Computation of Federal Tax Refund/ Deduction.

As Last Reported On: The figures used should be from the last form filed (i.e. IA 1120, IA1120A, IA1120X or IA1120F, 1139 claim for refund, amended return or last audit completed). Provide the form number of the last form filed or the date of the last Iowa audit.

Note: Lines 1 through 13 do not need to be completed if the only change is an alternative minimum tax loss.

2. Iowa Capital Loss: Amount of loss from Federal return or refund claim.

If refund is due to both a capital loss and a net operating loss, compute the amount attributable to the capital loss in the following manner: Federal capital loss ÷ (capital loss + net operating loss) x Federal refund x 50 percent. **This line does not apply to IA1120F.**
6. Nonbusiness Income: Amount from line 9 IA1120, or from IA1120F and/or schedules, or as last computed.
7. Income Subject to Apportionment: Subtract line 6 from line 5.
